PRIVATE FUNDING

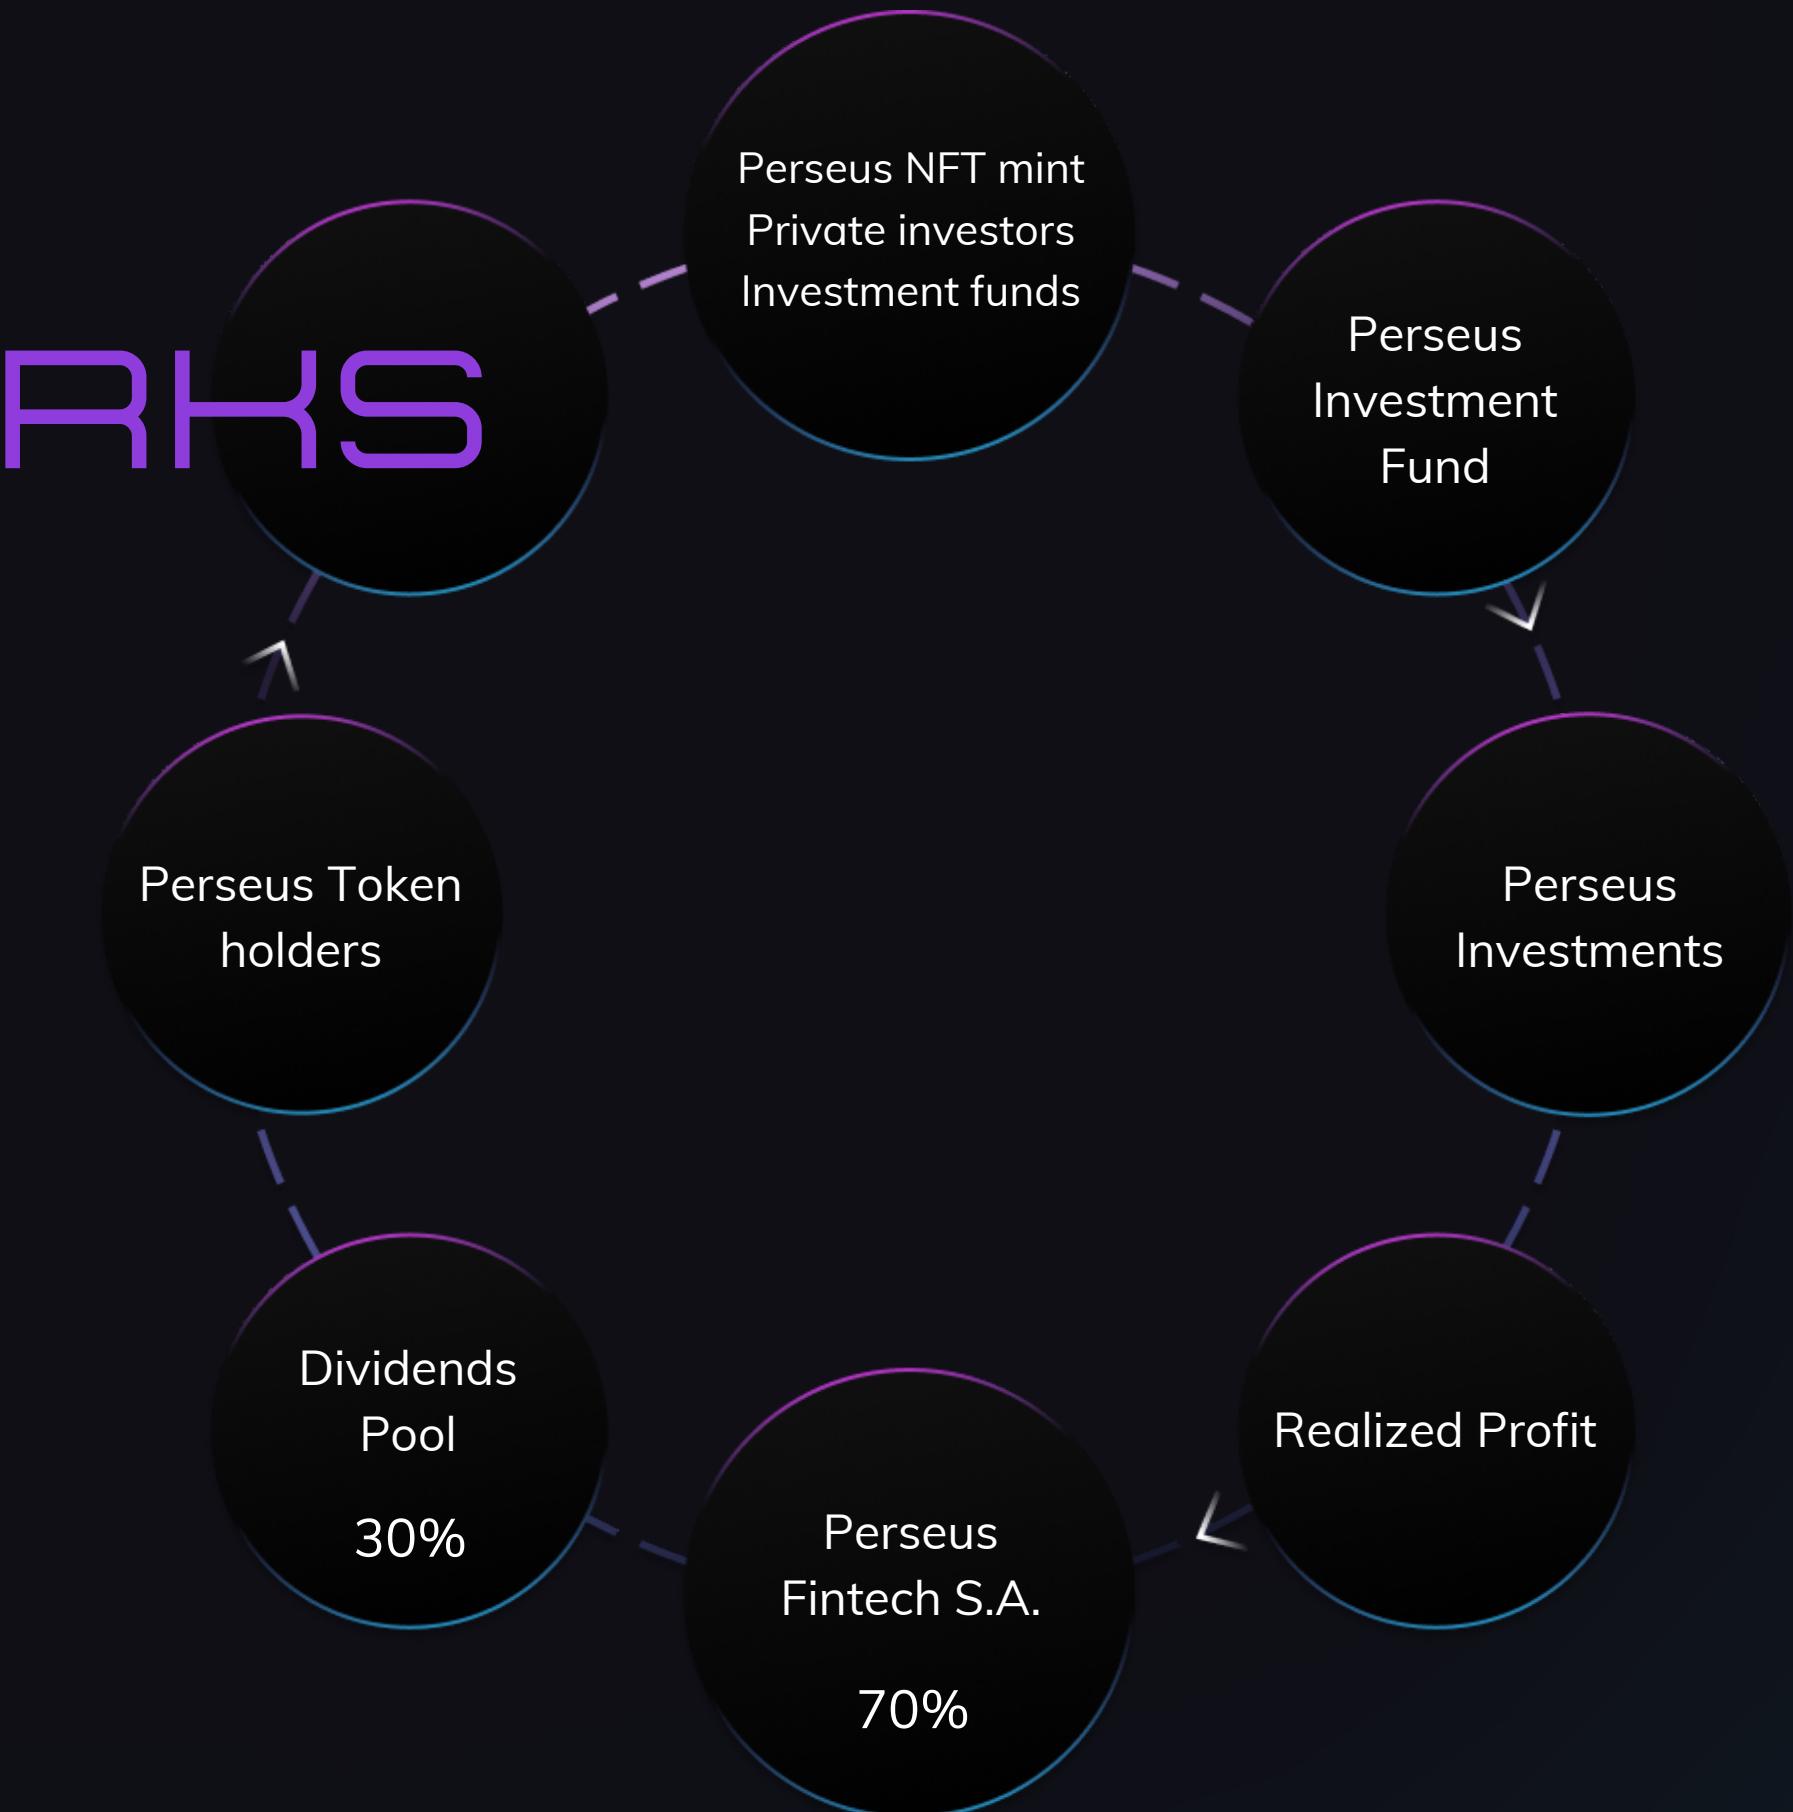

Perseus Fintech bridges 'traditional' investment funds and private investors with the opportunities of blockchain powered projects and NFTs

As a Perseus Token holder, you tap into 30% of all the profits we make by investing capital coming in from outside of the crypto space.

HOW IT WORKS

Perseus Fintech S.A. is an investment company listed on the Romanian Stock Exchange Market (BVB.ro) since 2012. At the beginning of 2022, the company started looking for investment opportunities into Cryptocurrencies and Blockchain based start-ups and projects, including NFTs.

Our goal is to bring in 'traditional' investment funds' and private investors' capital into the Crypto space, capital which we place into strategic investments across different projects, currencies and NFTs, mainly on the Solana and Ethereum blockchains. A third (30%) of all the profits we generate using this capital is shared through dividends with all the holders of Perseus Token.

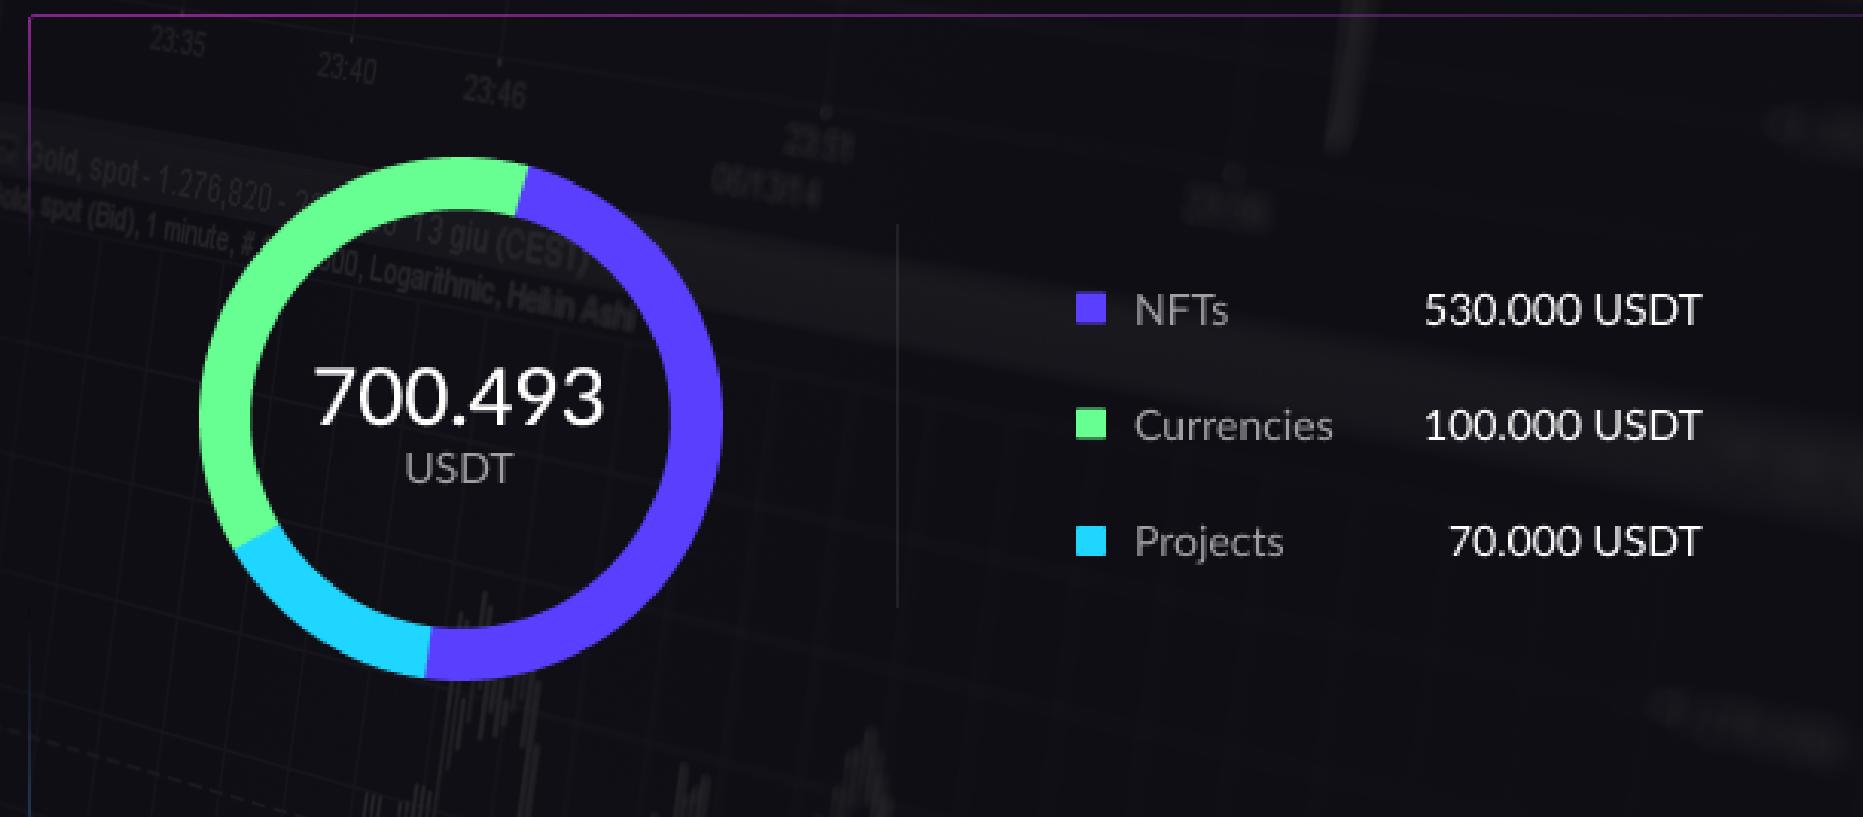

EARN DIVIDENDS

Stake your Perseus Tokens to receive a percentage share from the Perseus Dividends Pool.

Almost a third from all the profits made by Perseus Fintech's investments are given to the Perseus Dividends Pool. Simply stake your Perseus Tokens and receive 30% from Perseus Fintech Investment Fund's profits.

We run a diversified portfolio on multiple blockchains and crypto currencies.

NFTS

Earn Perseus Token daily from staking our NFT Membership Cards

The Black Card is our most exclusive membership card, with a supply of only 555 pieces. Aside from having the biggest Perseus Token mining speed and the largest 12 month staking bonus reward, this card is also airdropped a PFP unique NFT that you can showcase as your profile picture on any social media platform

The Platinum Card also falls into the category of exclusive membership cards, with a small supply of 1000 pieces.

The Gold Card has a supply of 1500 pieces.

The Silver Card has a supply of 2500 pieces.

DIVIDEND POOL

Every 3 months, all the funds raised in the Dividend Pool is distributed between the Perseus Token holders, based on the **circulating supply** of Perseus tokens in the market at the time of the distribution.

For example, after 3 months, the circulating supply of Perseus tokens in the market will be 10,387,500. If the Dividend Pool holds 1,000,000\$, each Perseus token will receive 0,096\$. A Black Card holder in 3 months mines 2500 Perseus tokens, which means the revenue for a Black Card after 3 months will be 240.67\$ from the Dividend Pool.

CARD	TOKENS	1 YEAR STAKE BONUS	CIRCULATING SUPPLY AFTER 3 MONTHS	CIRCULATING SUPPLY AFTER 1 YEAR
Black	10,000	14,000	1,387,500	13,320,000
Platinum	9,000	10,000	2,250,000	19,000,000
Gold	8,000	8,000	3,000,000	24,000,000
Silver	6,000	6,000	3,750,000	30,000,000
TOTAL: 10,387,500				TOTAL: 86,320,000

Perseus Fintech's 105.000.000 Perseus tokens are NOT calculated into the circulating supply, as they do NOT receive a share from the Dividend Pool!
